Thin Client

Introduction

1. Dual core 1.2GHz
2. VGA+HDMI output
3. Support scanner/Printer
4. Support USB ports disable
5. Support password setting in BIOS

FL120N features

1.High compatible

Support all kind of operation system as well as Linux Ubuntu OS.

2.Good video performance

Online video is the most best performance compare with local video after installing video improvement software(RDP Acceleration software)

3.High display resolution

Max 1920x1200@60Hz

4.Support Multiple Language versions of system user interface as below: English,French,Japanese,Thai,Portuguese.

5.Support Skype calling

Users can hear the sound clearly each other via Skype calling.

6.Multiple connection

Can support end user up to 60pcs under one powerful server

DataSheet

Processor	All winner A20 Dual core 1.2GHz
Protocol	RDP8.1
System memory	512MB RAM
Storage	4GB Flash
Resolution	1920x1200@60Hz
Server System	Windows 7/8.1/10/11 Server 2008 R2/2012 R2/2016 R2
Wi-Fi	Support Wi-Fi 150M_Optional
I/O port	
Output	1*VGA+1*HDMI port,4*USB port,1*SPK port
Input	1*DC port,1*RJ45 port,1*MIC port
Chassis	
Size	155X80X28mm
Weight	Net: 0.2KG
Rated output current (max)	2A
Output voltage	+5V DC
Performance	
Operating temperature	0℃~ 35℃
Operating humidity (Rh)	10% ~ 90% (non-condensing)
Operating voltage range	100 ~ 240 VAC

Rated line frequency	50 ~ 60Hz
Cooling	Fan-less Convection
Regulatory	ROSH, FCC, CE, CCC
